

Andhra Pradesh Net Metering - 2013

HIGHLIGHTS

Nodal Agency	New and Renewable Energy Development Corporation of Andhra Pradesh Limited (NREDCAP), DISCOM
Applicable Technologies	Solar grid interactive roof-top and small PV plants
Policy Period	From 25.03.2013
Targets under Policy	Not specified
Incentive Amount	No capital subsidy
Eligibility Conditions	For 3 Phase service consumers only. Panels should be of Indian make, IEC standards
Tax Exemptions	Not available
Evacuation Arrangement	APTransco/DISCOM

OTHER PROVISIONS

The policy is intended to encourage generation from unutilized rooftop areas, households, wastelands, etc., for self-consumption and for feeding excess power into the grid.

Cost of Metering	The generator shall bear the entire cost of metering, along with its accessories. The installation of meters, including current transformers and potential transformers, shall be carried out as per procedures followed by DISCOMs, with prior permission.
Protection System	Appropriate system on the consumer's premises with feature of islanding of generator
Billing	The generator shall pay the charges for net energy as per retail supply tariff specified by the Commission for the concerned DISCOM, if the energy supplied by the licensee is more than the injected energy of the generator. Any excess/surplus energy injected to the grid shall be treated as inadvertent and no payment will be made.
Registration Fees	Not available
Tax and Duty Exemption	Not available
Provision for Policy Review	Not available
