

## **Disclaimer**

The 'All About Renewables' portal is an initiative by Shakti Sustainable Energy Foundation (SSEF), New Delhi; World Institute of Sustainable Energy (WISE), Pune; and the Indian Renewable Energy Federation (IREF), New Delhi. The sole purpose of the portal is to provide up-to-date information on one single platform, on developments taking place in the renewable energy sector (specifically renewable electricity) in India, including cross-linkages with the conventional sector, and seeks to create wider awareness amongst the public and relevant stakeholders, besides encouraging increased knowledge, understanding and interest in the sector. For the specific purpose of the user/reader, the data has been restructured and formatted in an easy-to-read, user-friendly manner.

Data available on the portal does not constitute professional advice or other professional financial guidance, and it should not be used as the only source of information when making purchasing decisions, investment decisions or tax decisions, or when executing other binding agreements. In some cases, data up to December-end 2016 only has been provided. These were due to limitations in sourcing current, validated data. Attempts will therefore be made to provide the users with latest and updated data to the best extent possible, taking into consideration limitations in availability of data.

Due care and caution has been taken in collation of data which has been obtained from validated sources that have been duly mentioned, including those considered reliable and first hand. However, neither SSEF, WISE or IREF guarantee the accuracy, adequacy or completeness of any information provided in the portal nor do they accept any responsibility for the consequences of its use. They are not responsible for errors or omissions or for the results obtained from the use of such information, and have no financial liability whatsoever with the users of this portal.
